Obtain a highly customized sunless spray tan using our age-defying sunless tanning solution enriched with anti-oxidants and pure botanicals that leaves your skin feeling radiant with a natural-looking golden bronze glow. We only use the most state of the art sunless tanning systems to achieve optimal results.

Indulge in the ultimate sunless tanning experience with our revolutionary fusion of sunless tanning and advanced skin care elixirs.

Enhance your appearance, boost your confidence.  
**Look Better, Feel Better.**

**Optima Sun Lab - Sunless Tanning Re:Defined**

Optima Sun Lab brings you the world's first multi-treatment skin care system combining high quality sunless tanning + advanced skin care elixirs. Indulge in one or all of our sunless tanning and skin nourishing treatments delivered to you in a highly customizable application by one of our sunless tanning specialists.

## SUNLESS TANNING + SKIN CARE TREATMENTS

### **BRONZE TAN**

An all-natural, anti-aging sunless tanner made with antioxidants and pure botanicals, leaving the skin radiant with a natural-looking, golden brown glow. Containing a cosmetic bronzer derived from walnut extracts, our bronzing solution delivers immediate results. Tan fully develops in 12 hours.

### **CLEAR TAN**

An all-natural, anti-aging sunless tanner made with antioxidants and pure botanicals, leaving the skin radiant with a natural-looking, golden brown glow. This product was designed for clients who wish to enjoy the ultimate sunless tan without added bronzer. Tan fully develops in 12 hours.

### **NORMALIZE PRE TAN TREATMENT**

A fine blend of exotic aloe which assists in hydrating porous areas of the body. This product enables the sunless tanning solution to penetrate uniformly into the skin, resulting in a longer-lasting, more even sunless tan.

### **ANTI-AGING HYDRATION TREATMENT**

A skin rejuvenating treatment made with exotic plant extracts, antioxidants and botanicals to uncover the skin's natural radiance. This treatment is ideal for use after sunless tanning sessions.

### **HYDRATING SHIMMER TREATMENT**

An exclusive blend of shimmering radiance infused with emollients and humectants which serve to soften the skin while delivering a delightful glowing effect. The perfect skin treatment accessory.

## ELIXIRS

**ESSENTIAL:** Pre-Tan Treatment + Full Body Bronze Tan

**REPAIR + REVIVE:** Full Body Bronze Tan + Anti Aging Hydration Treatment

**RADIANCE:** Full Body Bronze Tan + Shimmer Treatment

**INCOGNITO:** Pre-Tan Treatment + Clear Full Body Tan

*\*All treatments can be customized to fit each individuals needs*

For the optimal sunless tanning experience, make sure you follow our recommendations for preparation and aftercare. This will ensure you receive the best results possible.

## PREPARATION

- Shower.
- Shave or wax at least 1 day prior to your spray tanning treatment.
- Exfoliate with a non-abrasive exfoliant. Do not use oil-based exfoliates, as they leave a residue that blocks the tanning process.
- Do not apply any lotion, deodorant, or makeup before your spray session. This will act as a barrier preventing the solution from absorbing properly.
- Please plan your day ahead: avoid swimming, bathing, and heavy exercise for at least 8 to 12 hours to ensure the best results.
- Wear loose, dark clothing + open toed sandals after your sunless session.

## AFTERCARE

- For optimal results wait at least 8 to 12 hours to shower or sweat. Don't worry if you see color washing off from your first shower. This is normal. What you see washing off is the immediate cosmetic bronzer and what's left behind is a beautiful sunless tan.
- Moisturize daily, especially after bathing, to maintain your sunless tan.
- We recommend using our tan extending moisturizers as this keeps your color fresh and vibrant, promotes even fading and ensures the longest lasting sunless tan possible.
- Scrubbing, exfoliating, shaving, and waxing will cause the tan to fade more quickly.
- Remember to wear a sunscreen. Sunless products do not contain sunscreen.
- Like any beauty routine, proper preparation, skin care, and upkeep are required to make the most of your Optima Sun Lab Tan.

Your sunless spray tan can last between 7-14 days. The way the tan fades is dependent on your maintenance and upkeep along with the way each person's body naturally goes through the exfoliation process.

## ENHANCEMENT PRODUCTS

Ask about our sunless tanning enhancement products to provide yourself with the ultimate sunless tanning experience and beautiful long lasting results.
